**MORE** options for steers. Angus steers suit all markets domestic or export, grass fed or grain fed.

**MORE** selling and buying opportunities. Special sales, paddock sales or AngusPlus online sales.

**MORE** demand for surplus females. The Angus female is in demand for her great maternal qualities. She's the best dam cow in the business.

**MORE** information on bulls. The pedigrees and EBVs of over 7500 Angus bulls appear in sale catalogues on [angusaustralia.com.au](http://angusaustralia.com.au) every year.

**MORE** money. The Angus Premium is real.

**MORE** information FREE. Receive our FREE short, easy to read Angus eNews in your email inbox every fortnight. Email [office@angusaustralia.com.au](mailto:office@angusaustralia.com.au) with 'send Angus eNews'.

## THE REAL ANGUS STORY

In 1824 a small group of sea-sick Scottish bred black poll cattle stumbled off a ship onto the Hobart wharf in Tasmania. That was the start of Australian Angus, now the backbone of the nation's high quality beef industry contributing tens of millions of dollars to Australia's export income annually.

Nigel Austin's 248 page full colour coffee table style book, *The Story of Angus Australia*, explains how the Angus breed has grown to comprise 50% of the nation's temperate zone beef herd. This book is now available to all persons with a love for rural Australia. Order forms and Angus information from [angusaustralia.com.au](http://angusaustralia.com.au) or (02) 6772 3011.
