

Angus Semen**SELECT**

The Angus SemenSELECT tool enables Angus breeders to search and sort for semen of registered Angus bulls that is currently available for sale, and to identify those genetics that are most aligned with their breeding goals and objectives.

This modern, intuitive interface makes it easier for breeders to search, sort and compare animals, to pinpoint the exact genetics that are of interest to their enterprise.

To access the suite of Angus SELECT tools, head to our website

<https://www.angusaustralia.com.au/angus-tech/angus-select-tools/>

BECOME A REGISTERED USER

Registered users will have access to an enhanced range of features, such as the ability to customise the display of search results, greater ability to more easily nominate the semen catalogues of interest, ability to enter a more comprehensive range of selection and sort criteria and more easily identify animal or semen lots of particular interest. Registered users can also print search results and animal reports.

ONLINE ACCESS TO SEMEN CATALOGUES LISTED WITH ANGUS AUSTRALIA
