

Research & Development Update

Spring 2020

Angus Australia invites all Angus seedstock and commercial breeders to an online event showcasing the latest research and development relating to Angus genetics. A dynamic series of presentations will be delivered during the event, covering topics such as:

ANNUAL ENHANCEMENTS
TO TACE

UPDATES TO
IMMUNEDEX

THE VALUE IN
ULTRASOUND SCANNING TO
PREDICT CARCASS TRAITS

VALUE OF THE
GENOMIC REFERENCE
POPULATION

STRUCTURAL SOUNDNESS EBVS
WHAT WILL BE CHANGING?

INTRODUCING THE
NEW SELECTION INDEXES

The free event will be streamed from the Angus Australia  YouTube channel

7pm AEDT on the 19th of November 2020

The event will be followed by an online discussion session, hosted through ZOOM, on November 20th. Giving participants the opportunity to ask questions of presenters and provide feedback to Angus Australia on the content of the presentations.

To register for the online discussion session visit the Angus Australia website. For further information contact Angus Australia's Breed Development Officer, Matt Reynolds on 02 6773 4626 or matthew.reynolds@angusaustralia.com.au.
