Commencing at 10.30am**

**FIELD DAY - Tuesday, February 9th, 2010
VENUE - "Fairbanks", Keith**

Roseleigh cattle performing...

Over the last six years we have used Roeleigh Bulls exclusively. Being bred in the Mallee conditions similar to our own, they and their progeny have stood up well to the harsh environment we have had to endure the last few years. Upon weaning, all calves are finished off in a feedlot and the majority sold overhooks interstate and locally. Cowley's bulls produce calves of a quiet temperament and good growth rate which perform well in our operation.
