

Angus DatabaseSEARCH

Angus Database Search enables Angus breeders to search Angus Australia's comprehensive animal database.

Using the Angus Database Search facility, Angus breeders can access information for any individual animal recorded with Angus Australia, or once logged in, can search and sort the Angus Australia database for animals that meet a selection criteria of interest.

To access Angus Database Search, head to our website
<https://www.angusaustralia.com.au/angus-tech/>

BECOME A REGISTERED USER

Registered users will have access to an enhanced range of advanced search options. It's easy to register. Simply provide either a mobile phone number or an email address. Once you have verified your identity, you will have immediate access to your account. Registered users can fine-tune their animal selections, by adding additional criteria to the Animal Name and ID search, or by choosing different fields altogether. Additional criteria can be made on animal characteristics, ownership records, pedigree information, genetic test status and EBV figures.

ONLINE ACCESS TO ANGUS AUSTRALIA'S COMPREHENSIVE ANIMAL DATABASE

ACCESS TO COMPREHENSIVE INFORMATION ON EACH ANIMAL

- o Display of complete ownership history of an animal
- o Display of all EBVs published within Angus BREEDPLAN for an animal, including Structural Soundness EBVs
- o Display of percentile band information below each EBV of an animal
- o Display of progeny bred by herd for all sires and dams
- o Display of the number of progeny with performance in association with the EBVs for all sires and dams
