

# ANGUS AUSTRALIA FOUNDATION CULTIVATING THE LEADERS OF TOMORROW

Diana Wood, Marketing & Communications Manager

## Supporting youth development, education and research to benefit the Australian beef industry

The Angus Foundation provides a mechanism for members and other beef industry stakeholders to support youth development, education and research programs conducted by Angus Australia.

These programs are designed to encourage and assist the involvement of young people in the Australian beef industry, to provide professional development opportunities for young beef breeders, and to assist in conducting research, development and educational programs for the benefit of Angus breeders and the wider Australian beef industry.

The Foundation's commitment to moulding the youth with leadership potential into great leaders that will ultimately become the future of the Angus breed cannot be understated.

Without the support of members and others in the industry it wouldn't be possible to pool the resources and know how in order to build something significant to further develop education, leadership and research opportunities.

Thanks to the generosity of past and present Foundation sponsors the following recipients have benefited from the Foundation in 2018:
