

The reach of the Angus Foundation

Cheyne Twist, Senior Marketing & Communications Officer

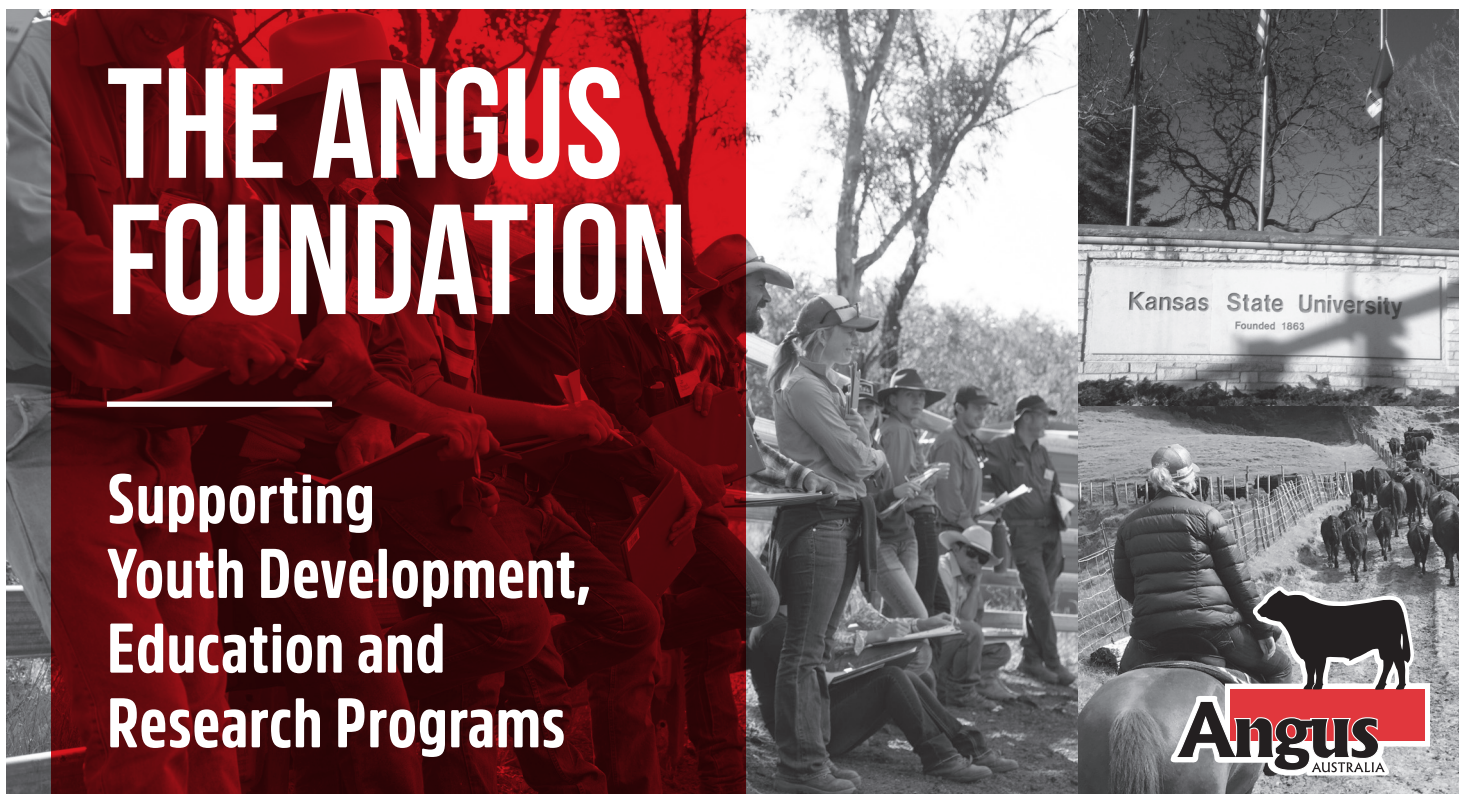

The Angus Foundation provides a mechanism for members and other beef industry stakeholders to support youth development, education and research programs conducted by Angus Australia.

These programs are designed to encourage and assist the involvement of young people in the Australian beef industry, to provide professional development opportunities for young beef breeders, and to assist in conducting research, development and educational programs for the benefit of Angus breeders and the wider Australian beef industry.

Over the course of 2022, several young people in the industry were afforded opportunities across the industry through the Angus Foundation scholarships, awards and bursaries.
