**BROOKLANA
ANGUS STUD
BULL SALE**

*Millah Murrah Prue M4 Daughters,
Brooklana Prue Q3 and Brooklana
Prue Q12 on display on sale day*

Wednesday 24th September 2025, 12 noon

at Brooklana Angus Stud, Interfaced with Auctions Plus sale 126447

— BULL SALE INSPECTIONS BY APPOINTMENT —

Welcome to our 2025 Bull sale offering, which is very much dominated by an exceptional animal, Millah Murrah Prue M4.

Now 10, Prue is over 2 months pregnant to another exceptional animal, Millah Murrah Rocket Man R38, the result of a natural mating. We are so excited – especially for her. Her breeder, Ross Thompson once described Prue as probably, the best Angus cow in Australasia – if you ask him again, today, I believe that you will get the same answer.

On 30.08. 2020, Brooklana Revolution R33, sired by Millah Murrah Paratrooper P15, out of Prue, was born, leased by ABS – for life at 17 months of age. Presence, Pedigree, Performance, Personality – he ticked all the boxes.

In 2024 the reports centred around his progeny, mirrored our own experience, resulting in our purchase of all semen from ABS and the termination of the lease. Revolution unfortunately is no longer with us. Our 2025 bull sale team picked themselves. 17 are Prue M4 grandsons, 15 are Revolution sons.

I first joined the ranks of bovine genetics in 1967, a passion that was rekindled in 2010 and now finds me yet again following that passion. Working 7 days a week, battling the challenges of a farming life - as we all do. The constant challenge that I have, is the designing of next. Being the next genetic bovine creation, What will compliment this animal? Will this cow joined to this sire produce more balance in the progeny?

I have never been a fan of a broad based, throw it all together and see what sticks approach, however I am unwavering in the commitment to the centuries ago proven, random selection process of genetic creations, requiring sufficient analysis of the resultant progeny, before determining the value of the parentage.

Having made that statement, our offering in 2025, mirrors that philosophy - dominated by an extraordinary cow, with the most beautiful disposition, structurally crafted, fertility rivalling rabbits, incredible doability, puts on weight by just looking at her. But above all else and this may surprise many, Prue is very smart, she is highly intelligent.

2025 we will remember as having scored a direct hit from cyclone Alfred on 7th March, receiving 3.2 metres of rain in 7 days, hit again on May 16th with 478mm in 24 hours. Our sale team was on standby for pretty much 4 months. Cold, wet, miserable – we all were! Out of this came the afterthought – not one of these bulls showed any sign, whatsoever of any foot or any other phenotypical issue – testimony to our phenotype selection criteria.

I am so looking forward to the next couple of years, when reports of the progeny from the sires purchased at this sale, start rolling in and for Brooklana, our current joinings are next level. Makes it a lot easier when we have what we have to work with.

Thankyou,

Rodger Pryce

The Brooklana Angus Bull sale offering is dominated by an exceptional animal Millah Murrah Prue M4.

MILLAH MURRAH PRUE M4 - 17 Grandsons Selling

Described by many as probably the best Angus cow in Australasia, her outstanding progeny heavily feature in our 2025 sale

BROOKLANA REVOLUTION R33

15 Sons Selling

Paratrooper - Prue. The best proven Millah Murrah genetics to date. Pedigree, phenotype, calmness, calving ease, efficiency, fertility. His sons picked themselves.

MILLAH MURRAH ROCKETMAN R38

5 Sons Selling

Rocket Man was the headline act at the world record Millah Murrah bull sale in September 2021, when he was purchased by Brooklana for \$280,000.

CLIFTON KIMBERLY V10

Revolution Daughter

Multi-award winning Revolution daughter whipping up a storm at shows across New England

BROOKLANA VANQUISH V6

Prue & Rocketman Son

This is what happens, when Prue M4 produces a Rocket Man calf.

Traits Observed: BWT, 200WT, 400WT, 600WT, Scan(EMA, Rib, Rump, IMF), Genomics

NOTES: Sired by a Prue x L29 son, Q17, whose flush brother sold for \$20,000 to Venturon Livestock in W.A. as a 5 y.o. Q17 has a strong representation through his daughters, they are large framed, quiet, great mothers. U22 EBVs show easy calving, quiet, easy doing progeny, a good start, we'll throw in the pedigree.

Angus Australia

Disclaimer and Privacy Information

Attention Buyer

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

Parent Verification Suffixes

The animals listed within this catalogue including its pedigree, are displaying a Parent Verification Suffix which indicates the DNA parent verification status that has been conducted on the animal. The Parent Verification Suffixes that will appear at the end of each animal's name.

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV: both parents have been verified by DNA.

SV: the sire has been verified by DNA.

DV: the dam has been verified by DNA.

#: DNA verification has not been conducted.

E: DNA verification has identified that the sire and/or dam may possibly be incorrect, but this cannot be confirmed conclusively.

Privacy Information

In order for Angus Australia to process the transfer of a registered animal in this catalogue, the vendor will need to provide certain information to Angus Australia and the buyer consents to the collection and disclosure of that information by Angus Australia in certain circumstances. If the buyer does not wish for his or her information to be stored and disclosed by Angus Australia, the buyer must complete the form included below and forward it to Angus Australia. If the form is not completed, the buyer will be taken to have consented to the disclosure of such information.

Buyers option to opt out of disclosing personal information to Angus Australia

If you do not complete this form, you will be taken to have consented to Angus Australia using your name, address and phone number for the purposes of effecting a change of registration of the animal(s) that you have purchased, maintaining its database and disclosing that information to its members on its website.

I, the buyer of animals with the following idents _____

from member _____ (name) do not consent to Angus Australia using my name address and phone number for the purposes of effecting a change of registration of the animals I have mentioned above that I have purchased, maintaining its database and disclosing that information to its members on its website.

Authorised Name: _____ Signature: _____

Date: _____

Please forward this completed consent form to Angus Australia, 86 Glen Innes Road, Armidale NSW 2350

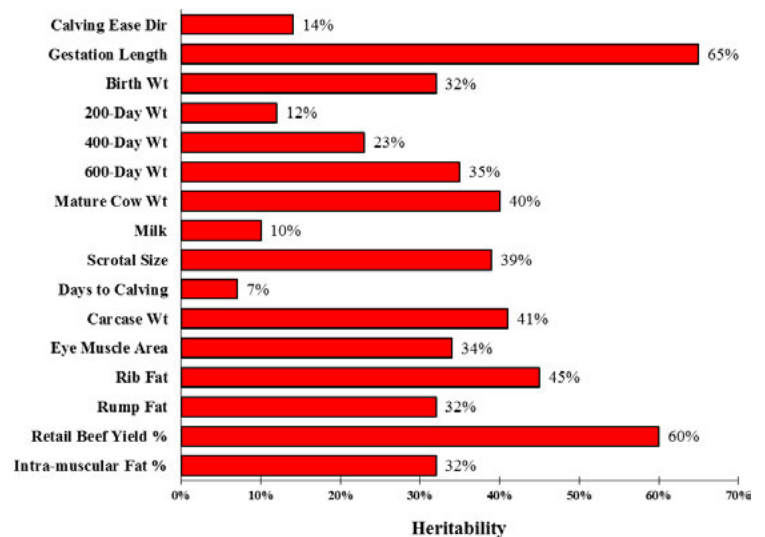

Heritabilities of Traits in Angus Group TACE (TransTasman Angus Cattle Evaluation)

Only part of the variation that we observe among animals is due to genetic differences. The majority of the variation is generally due to non-genetic factors such as differences in environment and nutrition.

The degree to which genetic differences influence performance varies from trait to trait. This is explained by differences in the “heritability” of the traits.

Growth and carcass traits tend to have moderate to high heritabilities (i.e. 20 to 60%), whilst maternal traits have low heritabilities (10% or lower).

Angus TACE takes into account the different degrees of heritability of various traits, and the known genetic relationships between the traits.

Brooklana Angus Bull Stud Guarantee

Any Brooklana Angus bull that proves to be structurally unsound, infertile or incapable of service is guaranteed for up to 2 years from the date of sale. Under these circumstances Brooklana Angus Stud will: REPLACE THE BULL WITH A SATISFACTORY SUBSTITUTE IF AVAILABLE, OR ISSUE A REFUND EQUAL TO THE VALUE REMAINING *see below, less the salvage value.

The guarantee covers the purchase value of the bull, without interest, cost and damages. The guarantee shall apply providing the bull's incapacity is not caused by injury or disease contracted since leaving Brooklana Stud, the value remaining is calculated on the basis that the guarantee is reduced by one half of the purchaser price for each year of service from the sale date. The purchaser on request must supply a Veterinary certificate. Any dispute that may arise shall be settled by a mutually agreed arbitrator and must be lodged within 12 calendar months from the date of sale.

DISCLAIMER: All possible care has been taken by the vendor to ensure that all information provided relative to this sale is correct at the date that the information was provided. Purchasers are encouraged to seek independent verification of the publication of any marketing material associated with this sale. The vendors and their agents do not accept any responsibility for any representation made or contained within marketing material applicable to this sale.

AGENTS REBATE OF 2% APPLIES TO OUTSIDE AGENTS INTRODUCING PURCHASERS IN WRITING, PRIOR TO THE SALE.
